

An Englert® metal roof is the smart choice.

Why Choose Metal?

A metal roof gives commercial buildings strength and longevity. Metal roofing is budget-friendly because a metal roof is long-lasting and virtually maintenance free. And as a roofing material, metal offers real protection and peace of mind for commercial building owners.

Advantages of a Metal Roof

- Eliminates maintenance and reduces operating costs
- Increases your building's value
- Engineered for strength and longevity
- Made from recycled material
- Energy efficient
- Available in a wide range of colors

Why Choose Englert?

We deliver the widest range of metal roofing solutions in the industry, with all the roof profiles, architectural details and structural options you want. Englert offers a complete program, including:

- Architectural and design support
- Specification and engineering guidance
- The most comprehensive materials and weathertightness warranties in the industry
- A wide variety of LEED, ULTRA-Cool® and Energy STAR® approved colors, plus the ability to custom-match virtually any color
- An exclusive single source warranty covering both membrane and metal roofing materials
- The widest range of tested profiles available, including UL®, FM®, ASTM, Florida building code, Miami Dade and ICC®
- State-of-the-art quality control and compliance
- Retro-fit (Re-roof) applications that can be applied over an existing roof
- A network of certified installation contractors

The Englert Edge

Englert is widely recognized as an innovative leader in the metal roofing industry. Englert metal roofing systems are custom cut and fit on-site to deliver a seamless, high quality roof. Englert contractors are the best in the business and can solve even the most complex design and installation challenges.

Ultra-Cool® Finishes

Englert's ULTRA-Cool* low-gloss metal roof coatings help reduce energy bills and meet both Energy STAR and LEED requirements for reflectivity and emissivity.

ULTRA-Cool coatings dramatically increase the reflectivity of medium-to darker-colored roofs. Architects and builders can enhance the appearance of their projects and save energy costs because reflectivity keeps the roof and interior spaces cooler

Galvalume® – Aluminum-Zinc Alloy Coated Steel

Galvalume is highly corrosion resistant and adds long term durability. It has a strong resistance to atmospheric corrosion, especially in high heat or brackish-water locations. Virtually maintenance-free, Englert Galvalume roofing carries a 25 year limited warranty on the Galvalume substrate and 25-35 year limited warranty against chip, crack, check, peel, chalk, and fade on pre-painted Galvalume

Beyond the Roof

The use of Englert's ULTRA-Cool coatings also has a positive impact on the environment. When heat is reflected away from the building, environmental temperatures are reduced. Metal roofing naturally contributes to the Sustainable Building Movement. Englert roofs allow architects and building owners to qualify for Green Building Status.

*ULTRA-Cool is a registered trademark of the BASF Corporation including brick, wood and fabric.

The Right Color

Englert is one of the few single-source metal roofing manufacturers with an in-house coil coating line. Whether your roof design calls for a natural weathered appearance or bright high-performance color, Englert offers a wide array of standard colors. Englert also offers a wide range of custom metal roofing colors, with short lead times and low minimum order requirements. Our color experts can match the color of virtually any material, including brick, wood and fabric.

The Best Warranties

Englert has the best warranties in the business. We offer a wide range of Weathertightness Warranties, and our 40-Year Standard Kynar Paint Finish Warranty is the longest in the industry.

A Smart Investment

It is the most affordable choice in the industry, with the lowest overall cost. Installing an Englert metal roof can also help you qualify for Government Tax Incentives and Energy Rebate Programs.

Choose Wisely

For the very finest roof for your commercial building, choose metal. For the very finest metal roof, choose Englert.

About Englert

For over 50 years, Englert has been one of the preeminent forces in metal roofing, and has won numerous industry awards for a wide selection of metal roofing projects. Englert is dedicated to offering architects, builders, and home owners innovative solutions that uniquely combine beauty and performance.
