

# ENGLERT™ METAL ROOFING

Since its founding in 1966, Englert has evolved into one of the pre-eminent forces in metal roofing. Englert offers architects and builders innovative, and ever more advanced solutions that uniquely combine aesthetics and performance.

Englert is widely recognized as the leader in jobsite rollforming, where materials are custom cut and fit on site, to provide a seamless, high quality product, with far less waste, and at lower costs than pre-formed panels.

Englert Metal Shingles are one of the more exciting innovations in the roofing industry today. They offer a perfect choice for light commercial and residential applications. Finally, an affordable, easily installed metal roof alternative.

## FEATURE PROJECT

### Larrison Hall

#### JOB PROFILE

**Project name:**

Larrison Hall, Brookdale Community College  
Lincroft, New Jersey

**Location:**

Rothe-Johnson Associates in Edison, NJ

**Architect:**

Benjamin R. Harvey CO., Inc., Ocean, NJ

**General Contractor:**

Architectural Design Panels Inc. (ADPI)

**Fabricator:**

Englert Series 2000, 22-ga Galvalume Steel

**Materials:**

B.C.C. Bronze - Special

**Custom Color:**

Brookdale Community College has reroofed many of their buildings with standing seam metal roofings, and again chose standing seam for this (new construction) building. The color selected was a custom color which presented no obstacle for Englert with our in house coil coating line.
