

# ENGLERT™ METAL ROOFING

Since its founding in 1966, Englert has evolved into one of the pre-eminent forces in metal roofing. Englert offers architects and builders innovative, and ever more advanced solutions that uniquely combine aesthetics and performance.

Englert is widely recognized as the leader in jobsite rollforming, where materials are custom cut and fit on site, to provide a seamless, high quality product, with far less waste, and at lower costs than pre-formed panels.

Englert Metal Shingles are one of the more exciting innovations in the roofing industry today. They offer a perfect choice for light commercial and residential applications. Finally, an affordable, easily installed metal roof alternative.

## FEATURE PROJECT

# Christ Community Church

### JOB PROFILE

**Project name:**

Christ Community Church

**Location:**

Plainfield, NH

**Architect:**

Thornton & Smith, Lyme, NH

**Fabricator/Installer:**

JEI, Inc. (Iron Horse Standing Seam Roofing Company), Tunbridge, VT

**Materials:**

Englert Series 1300, 26-ga Galvalume Steel

**Colors:**

Hartford Green

With its faux silo, authentic-looking cupolas and ag-style siding, the new Christ Community Church looks a lot like a well-maintained barn. In keeping with the rural New England vernacular, Thornton & Smith topped the structure with 40,000 sq. ft. of Englert's Hartford Green standing seam metal roofing.
