

ENGLERT™ METAL ROOFING

Since its founding in 1966, Englert has evolved into one of the pre-eminent forces in metal roofing. Englert offers architects and builders innovative, and ever more advanced solutions that uniquely combine aesthetics and performance.

Englert is widely recognized as the leader in jobsite rollforming, where materials are custom cut and fit on site, to provide a seamless, high quality product, with far less waste, and at lower costs than pre-formed panels.

Englert Metal Shingles are one of the more exciting innovations in the roofing industry today. They offer a perfect choice for light commercial and residential applications. Finally, an affordable, easily installed metal roof alternative.

FEATURE PROJECT

Harley Davidson Dealership

JOB PROFILE

- Project name:** Harley Davidson of Naples
Location: Naples, Florida
Architect: Davis Moore & Spence Architects, P.A., Ft. Myers, FL
General Contractor: David Bubbley of Chase Builders, Ft. Myers, FL
Roofing Installer: Camp-Rigby Roofing, Cape Coral, FL
Materials: Englert Series 1000 panels.
Color: Custom Kynar Color, Metallic Zinc
- Customer selected Englert's Series 1000 due to available testing and the ability of the panel to be roll-formed at the job site thus providing a seamless roof from ridge to eave. In addition, Englert was selected as they were able to supply a custom color on their in-house paint line.
