

ENGLERT™ METAL ROOFING

FEATURE PROJECT

Since its founding in 1966, Englert has evolved into one of the pre-eminent forces in metal roofing. Englert offers architects and builders innovative, and ever more advanced solutions that uniquely combine aesthetics and performance.

Englert is widely recognized as the leader in jobsite rollforming, where materials are custom cut and fit on site, to provide a seamless, high quality product, with far less waste, and at lower costs than pre-formed panels.

Englert Metal Shingles are one of the more exciting innovations in the roofing industry today. They offer a perfect choice for light commercial and residential applications. Finally, an affordable, easily installed metal roof alternative.

Student Life Center

JOB PROFILE

Project name:

Location:

Architect:

General Contractor:

Fabricator:

Roofing Contractor:

Materials:

Student Life Center, Brookdale Community College
Lincroft, New Jersey

Rothe-Johnson-Fantacone, Edison, NJ

Eastern Builders, Hazlet, NJ

Architectural Design Panels Inc. Perth Amboy, NJ

Coffey Brothers, Howell, NJ

22,000 sq. ft. of 18" wide Englert Series 2000 panels formed from 22 gauge galvalume painted B.C.C. Bronze (special color). The Englert Series 4000 flush seam panels were used for the soffits.

Brookdale Community College has reroofed many of their buildings with standing seam metal roofings, and again chose standing seam for this (new construction) building. The color selected was a custom color which presented no obstacle for Englert with our in house coil coating line.
