

*The Englert Advantage in Metal Roofing:*

# ALUMINUM & STEEL

**SHEETS AND COIL**

## **NOW, THE LEADER IN METAL ROOFING BRINGS YOU A FULL RANGE OF ALUMINUM AND STEEL PRODUCTS.**

Whether it's a reroofing project or new construction, Englert makes buying aluminum and steel easier than ever. Our team of reliable professionals is known and trusted from coast to coast for the highest standard of quality and service. As one of the leading single-source roofing suppliers, Englert offers powerful advantages like unmatched customer service, a wide selection of products and cost efficiency. Our extensive nationwide distribution network assures you virtually 100% product availability in a complete range of color choices.

## **THE BENEFITS OF WORKING WITH ENGLERT**

### **Technological leadership for quality without question.**

Englert systems permit complex roof configurations from ridge to eave, to ensure a crisp roof line and greater weather-tightness. Our metal roofing systems have earned the Energy Star® label, and reflect radiant heat back to the sun, reducing cooling requirements and saving energy consumption.

### **Sales and technical support whenever you need it.**

You can count on responsible, experienced support at every stage of your project. We provide knowledgeable assistance with everything from product selection to installation issues. Skilled technical advice and a list of nationwide certified installers are just a call away.

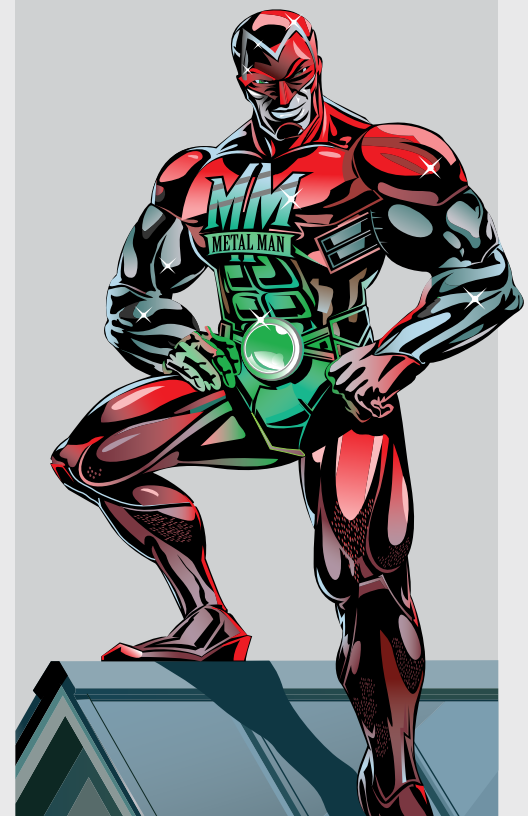

### **Comprehensive warranty on metal and finish.**

Virtually maintenance-free, Englert aluminum roofing carries up to a 35-year limited warranty on paint finish against peeling, blistering, chalking or color change.

## **THE METAL EXPERTS**

Englert is one of the nation's leading forces in metal roofing, rainware, coil coating and portable roll-forming equipment. Since 1966, we've been a pioneer in building products – from the development of LeafGuard®, the revolutionary debris-shedding gutter system, to fully integrated metal roofing with an in-house, continuous coil coating line.

# FINISHES THAT MEET ANY DESIGN OBJECTIVE

Englert is one of the few single-source metal roof manufacturers with an in-house coil coating line and an exceptionally broad range of finishes, whether the design calls for a natural weathered appearance or bright, high-performance, full-strength fluorocarbon colors.

## Custom Colors

We can match the color of virtually any material, including brick, wood and fabric. Englert offers short lead times, and our minimum custom-color order requirements are among the industry's lowest.
