# CUSTOM COIL COATING SERVICES

## WHEN EXPERIENCE COUNTS

As a leading provider of custom coating services, Englert offers precision toll coating and precise color matching for large and small orders in a wide range of industries including lighting, residential and non-residential building products, garage and entry doors, sign stock, automation control panels, HVAC, industrial products and more.

Our new, state of the art paint line produces the highest grade painted steel and aluminum in the industry. Our coating, slitting and stamping is done under one roof by metal experts with years of experience in rapid turnaround

to save you time and money and our industry reputation for customer service and product quality are unparalleled.

Our manufacturing and distribution facility is conveniently located at the crossroad of every major East Coast artery—ensuring swift delivery and the most attractive freight costs possible.

## PART OF YOUR TEAM

Our veteran team of professionals acts as an extension of your business allowing you to focus on the design, production, and distribution of your finished product. Meanwhile, we focus on what we do best—delivering quality pre-coated metal products to our customers. We tap years of coating expertise to deliver problem-solving solutions for precision coating applications. By choosing Englert to coat your products, you can reduce your cost of manufacturing and inventory requirements and eliminate any environmental concerns with the assurance that your product is being produced at the most environmentally advanced plant in the United States.

## STATE-OF-THE-ART PRODUCTION FACILITIES

Englert's world class coating facilities set the industry standard for quality, color and consistency. Our advanced oven technology ensures color is uniform across every coil, while our application system guarantees a smoother, easier application of paint to metal surfaces, making the process more controllable and measurable. Our cutting edge pretreatment process maximizes paint adherence and quality consistency.

We can apply a variety of coatings and can provide custom print-coat products for all niche applications. We offer a complete line of coating finishes including Polyesters, Silicone Modified Polyesters (SMP), Fluorocarbons (PVDF) and Plastisol (PVC).

## AT ENGLERT, WE DELIVER PEACE OF MIND WITH:

- Short lead times and the highest yields
- Exceptional product packaging to protect finished material from door to door
