

CAPABILITIES

- Installed Panel Width – 12" O.C.
- Concealed Fastening with Pre-Punched Holes at 5.157" O.C.
- 2" Wide x ¾" Deep Vertical Batten
- Vertical Wall Applications Only
- Available Material:
 - Steel - 24ga, 22ga - 30' maximum length
 - Aluminum - .032", .040" - 22' maximum length

RATINGS & CERTIFICATIONS

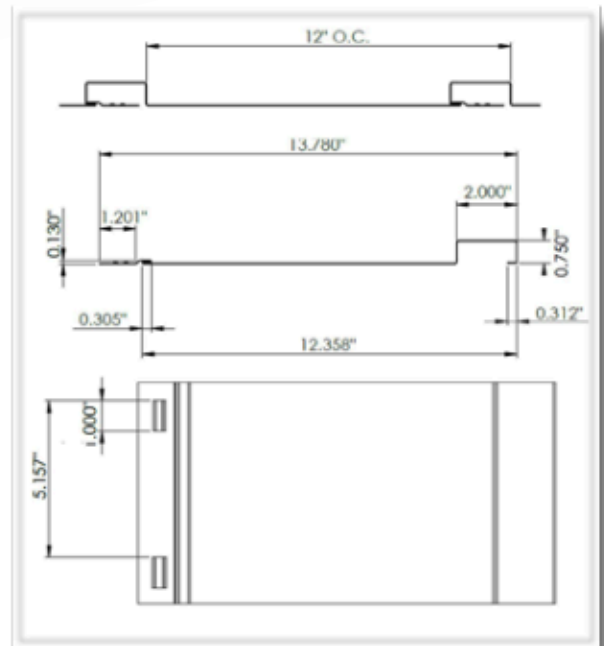

- ASTM E 84 Class A fire rating on coating and substrate
- ASTM E 330-02 uplift tested
- Florida Building Code Approved

FINISHES

- Englert offers a full range of standard low-gloss/ULTRA-Cool™ colors in full strength 2-coat Kynar® paint.
- Englert can match the color of virtually any material, including brick, wood and fabric.
- Custom colors are available in quantities as low as 4,000sf in both steel and aluminum.

Kynar 500® is a registered trademark of Arkema, Inc.

Galvalume® and Galvalume Plus® are registered trademarks of BIEC International, Inc.

WARRANTIES

- Galvalume Plus® – 25-year* steel warranty on acrylic coated Galvalume®
- PermaColor 3500 or PermaMetallic 3500 – 40-year* warranty on Kynar 500® coating over steel or aluminum substrate
- 25-year base metal warranty on AZ50 Galvalume® substrate with painted Galvalume® coated steel

Scan to access additional Board & Batten panel technical data.

**Dependent on project location. Within ½ mile of salt or brackish water, finish warranty is 35 years on aluminum base metal only and Galvalume® does not carry a warranty.*
